

Magento QA Quick Guide

1. Product Types

Simple Product

A single product without variations.

Example: Black T-Shirt – ₹500

Configurable Product

A product with different variations such as size or color.

Example: T-Shirt → Red + Medium

Grouped Product

A group of separate products that customers can choose to purchase individually.

Example: Stationery Collection → Lunch Box + Bag + Compass Box

Bundle Product

A product that allows customers to build or customize a package by selecting different options.

Example: Stationery Kit → Select Lunch Box, Bag, and Compass Box

Virtual Product

A non-physical product or service that does not require shipping.

Example: Online Consultation

Downloadable Product

A digital product that customers can download after purchasing.

Example: Magento Testing Guide – PDF
